Verdict

As the poor star rating indicated, overall these Steak Burgers disappointed, with many critical of the 'dry, chewy, gristly' delivery, which some considered as 'expensive for what they are'. Failing to excite or inspire, even a robust (50% reduction) price promotion was insufficient to stimulate purchase intent.

Consumer Reviews	Star Rating	% Who Rated	Reviewer Comments*
	★★★★★	2%	Very meaty, tasty burger,
	★★★★☆	20%	Tasty burger, but could have done with a little more seasoning. Nice texture. Good texture but slightly bland Good quality beef. Nice taste and no nasty aftertaste
	★★★☆☆	26%	An average burger a bit chewy Easy meal to make in a hurry I loved the texture but they were lacking in taste, could do with more seasoning. Packaging standard for this type of product A good size. Good they were gluten free, but tasted dry and could have had a more meatier flavour. Tasted like processed meat.
	★★☆☆☆	25%	Average Not great
	★☆☆☆☆	28%	Chewy and gristly Looked really appetising but were tasteless and a bit chewy. Expensive for what appeared to be a really cheap steak burger. Grisly, chewy, disappointing, oily
